MLLE. DOLORES.

Honolulu people have ever been known for their excellent taste in music and when it is known that the critics wherever Mlle. Dolores has traveled have invariably praised her singing, they will certainly be anxious to attend the concert to be given in the Opera House on Tuesday night next. Here is what one of the critics says of Mlle. Dolores: "To go away from a concert and have nothing to criticize is a decidedly awkward position for a musical critic. Nobody can be expected to see with equanimity his occupation gone. Yet what is one going to do when one feels as if it did not matter much what songs were sung, or in what order they appeared. For every song, as long as it lasted, was liked so well that all the others were forgotten at the time. A fascinating personality and a matchless art were always present, and it seemed a matter of secondary importance in what particular mood this remarkable combination manifested itself."

This is just one of the hundreds of favorable comments on the singing of Mlle. Dolores. In all the many crit-

cisms that have been seen, there is not one in any other strain than that of praise.

HILL AIMS TO HAVE MONOPOLY

MORE LIGHT ON THE MAGNATE'S PLANS IN CONNECTION WITH THE ORIENTAL TRAFFIC.

CHICAGO, April 25.—Additional facts came to light today regarding the plan by which James J. Hill expects to secure and control absolutely the Oriental trade through the port of Seattle. A short time ago at a meeting of the hold of Hill's new boats. It is there fore expected that every steamship plying between Seattle and the Orient will have to give way to the Hill steamers, which will be able to secure a monopoly of the traffic.

The purpose of building boats which are more than twice as large as the freight boats now afloat is to make competition by other steamship lines difficult. The majority of competing craft would rest comfortably in the hold of Hill's new boats. It is there fore expected that every steamship plying between Seattle and the Orient will have to give way to the Hill steamers, which will be able to secure a monopoly of the traffic.

Regarding return loads from the Orient, Hill is not so particular. One purpose of constructing the new boats was to create tonnage for the East over the Burlington and northern lines to Seattle for export. The object of this is to provide loads for Hill's freight cars, which have to be hauled 2000 and 3000 miles to get the varied products of the Northwest and transport them to the markets of the East. If equal tonnage was created by the new boats eastward Hill would be in no better position regarding hauling "empties" to the Northwest than he is now.

YOKOHAMA, April 4.—The arrival from the United States of J. D. Farrell, assistant of J. J. Hill, the North-

ern Pacific Railway magnate, has revived rumors of an impending ocean freight and passenger war. Mr. Farrell has been very busy since his arrival a week ago interviewing the local agents of the Northern Pacific and agents of Japanese lines and houses to ascertain just the amount of support and co-operation any extension of his company's service could depend upon. He has not announced the result of his inquiries, which are being looked for with interest, the preponderance of opinion being against the chance of a rate war. The Harriman lines are especially interested in the result of Mr. Farrell's mission.

WOULD HIRE GIRLS BUT FOR HIS WIFE

SENATOR HANNA ADMITS ADMIRING WOMEN STENOGRAPHERS IN TALK TO STUDENTS.

COLUMBUS (O.), April 22.—Senator Hanna, in his address to the students of the Ohio University this morning, made the statement that he would hire girl stenographers every time in preference to men, and if it were not for his wife, would fill his office with them, because, he said: "They are more industrious, more efficient and a good deal safer. Besides, I admire them."

This statement was received with cheers by the students. On the platform with Senator Hanna were Governor Nash and Congressman Grosvenor, and they too joined in the burst of enthusiasm which followed the frank statement. The Senator addressed the students in the chapel of the college at the convocation and his talk was informal, dealing with the advantages of young men and women created by higher education. Speaking of the element of success, the Senator said: "It is an encouraging sign in our development that young women find vocations suitable to them. Why, if my wife would allow me, I would have young women filling every position of stenographer in my office. I plead guilty; I admire them."

MUNICIPAL OWNERSHIP

BILL AUTHORIZING MUNICIPAL OWNERSHIP OF STREET RAILWAYS FAVORABLY REPORTED.

SPRINGFIELD, Ill., April 17.—The House Committee on Municipal Corporations have agreed on a bill authorizing every city in the State to own, construct, purchase, mortgage and lease street railways. It provides for leasing not longer than twenty years to any company incorporated under the general corporation act of Illinois, but no city can do anything toward the construction of a railway without the sanction of a three-fifths vote of the electors. Bonds can be issued, or in lieu of them, certificates of indebtedness, but not unless authorized by a majority vote of the people.

Fundamentally the bill is intended to permit the city of Chicago to own the present system of street railways.

When the bill was reported to the House Clettenberg presented a minority report signed by himself, McElvinn, Erickson and Patterson. On motion of Lindsay the minority report was tabled. The committee bill was then read for a first time and made a special order on Wednesday.

HARRISON BOOM IS LAUNCHED

CHICAGO MAYOR COMES OUT IN THE OPEN AS A CANDIDATE FOR THE PRESIDENCY.

CHICAGO, April 19.—Mayor Carter Harrison's presidential boom was launched today at the organization of the Chicago Democratic Club at Mason Temple drill hall. It is expected there will be a membership of 1000 within two weeks and 3000 representative Democrats of Chicago before the middle of May.

Mayor Harrison, by virtue of his election for a fourth term as Mayor, becomes the Democratic leader of Chicago, and the club organized today will supersede in local power the old Cook County Democracy, many members of which are politically hostile to the Mayor.

Lawrence E. McCann, City Controller, was chosen president of the club and Captain Adrian C. Anson sergeant at arms and marshal. The famous ball player will lead the marching hosts of the club in advocacy of the candidacy of Mayor Harrison. While no details have been arranged, there will be extensive trips over the country when the political claims of the Mayor will be set forth. The club also will attend the next Democratic National Convention wherever it may be held.

The speaker today declared that Chicago is the center of the Democracy of the country, that here is the place whence should radiate the principles of the party and that the Mayor is the most available candidate to pit against President Roosevelt or any other candidate the Republicans may put up. The meeting was enthusiastic and the movement here promises to grow to formidable proportions in the West.

COINS FOR PHILIPPINES.

PHILADELPHIA, April 18.—There are ready for shipment to the Philippine islands \$2,000,500 pesos, which were coined at the Philadelphia Mint in the last twenty-five working days. The coinage in this case is equal to the minting of the same number of American dollars, and it thus required the handling on an average of 100,000 pesos daily for the twenty-five days. During this time the Mint also added to the Philippine coinage 9,100,000 pieces of bronze, valued at \$91,000 and 3,600,000 nickels valued at \$180,000.

THE EIGHT HOUR SPECTRE RISES

IT ALMOST CREATES A PANIC IN THE SENATE—BELIEVE THE SPECTRE IS LAID.

A spectre arose in the senate this morning and almost created a panic for a time, until a few reassuring legal opinions were given.

The spectre was the eight hour law passed at the regular session. Senator Achi announced that it would be necessary to increase the appropriation for salaries of the police fifty per cent because of the eight hour law, because now the police stood twelve hour watches, but under the eight hour law could not be required to, so that it would require fifty per cent more men.

Senator Iseberg immediately declared that he didn't believe the eight hour law applied. Senator Achi said that the governor thought it did and had called his attention to it whereupon he had re-read the law and was convinced that it did. Most of the senators thought it could not possibly apply to the police department, because it was never intended to apply to the police, until Senator Iseberg got a copy of the law and read the section in question which is section two of an act entitled an Act to regulate the employment of labor on the public works of this territory, and is as follows: "Eight hours of actual service shall constitute a day's labor for all mechanics, clerks, laborers and other employees employed upon any public work or in any public office of this Territory, or any political subdivision thereof, whether the work is done by contract or otherwise. Provided, however, that the full eight hours shall not apply to Saturdays or any holiday."

Then most of the Senators thought it did apply, until Senator Dickey analyzing the language of the section reached the conclusion that as the police were not employed on public works and did not work in an office but out under the blue canopy of heavens, they were not included. President Crabbe ventured the opinion that Dickey was the only lawyer that would construe the language in that way.

Senator McCandless thought that the duties of the police were of such a character that they would come under the exception in favor of emergencies. Senator Iseberg who had been out making a flank movement on the spectre brought back word that the police themselves had constructed the law as to include them, and had given the high sheriff intimation of their construction of the statute. He also said that the Attorney General held that the law did not include the police department.

Dickey triumphantly called the attention of President Crabbe to this fact as proving that there was at least one other lawyer who agreed with him in his construction of the law. Finally all the items of the police department in the bill under consideration were referred to the judicial committee to get the opinion of the Attorney General and the Justices of the Supreme Court on the construction of this statute.

THE SENATE KEEPS AT ITS WORK

THE UPPER HOUSE OF THE LEGISLATURE GOES RIGHT AHEAD WITH ITS BUSINESS.

Secretary Carter sent a communication to the Senate this morning stating that there was a balance of only \$440 in his appropriation for printing and advertising which was not enough for the printing of the laws and appropriations which were required to be printed within thirty days. He asked for an additional \$1000 to be placed in the emergency bill. The communication will be taken up with the bill.

A resolution offered by Dickey was adopted requiring the clerk to give to the president all petitions, resolutions and reports on items in the appropriation bills to be considered with the bills.

On consideration of the six months appropriation bill, Senator Achi presented an amendment providing that the three additional clerks asked for by the circuit judges should be appointed by the chief justice, so that they could be employed in any court where their services were needed, instead of being attached to a particular judge, taking a vacation whenever their particular judge went to the coast or to Washington.

When the Attorney General's department was reached in the six months salaries bill, Senator Dickey announced that he intended to move a reduction of salaries of heads of departments, all around, and would begin by moving to reduce the salary of the Attorney General from \$2250 for the six months to \$1800 for the six months or at the rate of \$3,600 a year. He said that with the passage of the county bill a great deal of work and responsibility had been taken from the heads of territorial departments, at least in most cases, and added expenses for the same work had been put on through the county government. It was therefore time for a remodelling of the salary list, and retrenchment was possible.

Senator Iseberg promptly opposed the reduction. He said that the heads of departments held responsible positions and should be paid salaries in proportion to those paid by commercial enterprises for similar class of service. He expressed the belief that unless public officials were paid pretty good salaries, there was added temptation to accept bribes, and especially was this the case in the police department.

Senator Dickey's was the only vote recorded in favor of the change.

SYMPHONY CONCERT TONIGHT.

The management for the Symphony concert tonight in the Hawaiian Opera

House beg to announce that the concert will start at 8:15 sharp. All persons that are not seated at this time will have to wait until after the first number.

SECRET SOCIETY GETS LICENSE

PETITION IS APPROVED BUT APPLICANTS WITHDRAW IT TO AMEND IT.

The application of the Hawaiian Secret Society for a license has been approved, in an opinion rendered by Assistant Attorney General Weaver, and Treasurer Kopekai is prepared to issue a license. The application, however, has been temporarily withdrawn by the following letter from Isaac H. Sherwood, who was one of the applicants: "Owing to a faulty construction of the same, and by and with the consent of the other petitioners, I as one of the petitioners, beg leave to withdraw the application of Hawaii Lodge No. 1 for a license to maintain a secret association, which will then enable said petitioners to file another application in conformance with the law in such cases made and provided."

The license will provide that the society shall file a list of its members approved by the treasurer, also copies of its public rules and regulations and that the Governor shall have power at any time to revoke the license. The petition stating the objects of the society is as follows:

"That your petitioners are citizens of the Territory of Hawaii, U. S. A., and are desirous of organizing, forming and maintaining a secret association under the provisions of an act entitled 'An Act to Prevent Unlawful Secret Associations,' approved the 29th day of August, A. D. 1884.

"2. That the name of such secret association shall be 'Hawaii Number One,' having its headquarters in the said city of Honolulu, and the object for which the same is to be organized is as follows, to wit:

"To inculcate the cardinal principles of friendship, charity and benevolence, to provide for sick and funeral benefits.

"3. To make by-laws for the governance of its members, now or hereafter to be admitted.

"4. To appoint officers and standing committees, and to hold periodical sessions in said Honolulu for the legitimate prosecution of its business according to the by-laws. Finally

"5. To comply with all the requirements of the laws of this Territory now or hereafter to be enacted governing secret associations established in this Territory. Henry Smith, Mark P. Robinson, John D. Holt, Jr., Samuel C. Dwight, J. M. Ezera, Isaac H. Sherwood."

HEAD JAMMED BETWEEN BOATS

NISHIMURA, SAILOR ON NOEAU, PROBABLY FATALY INJURED AT HONOKAA.

Nishimura, a Japanese sailor on the steamer Noeau, sustained injuries last Thursday at Honokaa, that are likely to prove fatal. He was one of the boatmen and had returned with several others in an empty boat to the side of the vessel to get another load for the shore. The sea was quite rough and in some manner, he lost his balance and fell out of the boat between the boat and the steamer. As he rose, the swell swept the smaller boat against the vessel, catching the Japanese's skull.

The jaw and lower portion of the man's head were fractured by the force of the impact. The man was stunned. Others in the boat dragged him out of the water. Captain Pederson had the injured man taken ashore at once, where the sailor was transferred to the Honokaa hospital. Blood was running from the mouth, eyes and ears of the injured man and he was unconscious. The man was reported to be still alive when the Noeau left for Honolulu yesterday. There seemed little chance for his recovery however.

LONDON BEETS.

By cable to the Planters' Association, From Williams, Dimond & Co. SAN FRANCISCO May 1.—The London price of 88 analysis beets this day is 8 shillings, 4½ pence. The last quotations was April 30, 8 shilling, 3 pence.

Want ads in Star cost but 25 cents.

IT IS DIFFERENT NOW.

Once upon a time students of medicine held the notion that there were as many different diseases as the body has organs and parts; every one of these ailments requiring a different treatment. So stupid a mistake could lead only to miserable failures. For the fact is, the body is a single machine; and what concerns one part of it concerns, more or less closely, all the rest. Thus we see how it happens that one remedy, or mode of treatment, may relieve and cure a variety of complaints,—or what may appear like a variety, but are really various forms or outcroppings of the same cause. Take, for example, Anemia, Scrofula, Poverty of Blood, General Debility, Influenza, Throat and Lung Diseases, etc.—a formidable array indeed they look to be; yet

WAMPOLE'S PREPARATION quickly abates the worst of such cases, and absolutely cures many which have been abandoned as hopeless. The reasons are: its power over the digestive and assimilating process, its action in expelling impurities from the blood, and its consequent ability to vitalize and rebuild the whole structure. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. It was not dreamed of, or discovered by accident; it was studied out, on the solid principles of applied medical science. It is precisely what it is said to be, and has won the confidence of the public on that basis. Dr. Thos. Hunt Stucky says: "The continued use of it in my practice, convinces me that it is the most palatable, least nauseating, and best preparation now on the market." Every dose effective. "You cannot be disappointed in it." Sold by all chemists the world over.

BAND CONCERT.

The Territorial Band under the direction of Captain Berger will give a concert tomorrow afternoon at 3 o'clock at Makae Island, Kapaemahu Park. The following is the program:

Fantasia, "Springtime" (new).....Waldteufel
Selection, "Popular Airs".....Luders
"Star Spangled Banner."

FEDERAL BUILDING SITE.

Collector Stackable has received the following letter from the department regarding the proposed exchange of land for a site for a federal building. Treasury Department, Office of the Secretary, Washington, April 17, 1933.

The Collector of Customs, Honolulu, H. T.
Sir: Referring to the proposed exchange of certain Territorial lands for property of the Bishop Estate in your city to secure a site for a Federal building, you are requested to inform the representatives of said estate that while the Department looks with favor upon the proposed exchange, it feels that in the absence of legislation expressly directing the securing of a site for a Federal building at Honolulu, the Department is not justified in authorizing the exchange to be made and therefore can do nothing in the matter at this time.

Respectfully,
A. R. ARMSTRONG,
Assistant Secretary.
